classroom tables, seminar tables and student desks
OVERVIEW

If you ask educators and administrators, it’s clear they prefer furniture that balances price, performance and style. They’ll also tell you this balance has proved hard to find in classroom tables and student desks.

But now there’s a new Virco® furniture line that gives colleges and universities, as well as public and private schools, just what they’ve been looking for. Text™ gets the message!

Designed by the award-winning team of Peter Glass and Bob Mills – who collaborated with Virco on the generously proportioned Sage™ seating line for colleges, universities and high schools, the best-selling Zuma® classroom furniture collection, and the all-new Metaphor™ and Telos™ classroom furniture lines – Text tables and desks combine elliptical legs, swooping yokes and arched feet for contract-level elegance with heavy-gauge tubular steel and proven Virco construction for extended product life. Intelligently conceived features and accessories enable Text to deliver perfectly balanced furniture solutions for colleges, universities, public schools and private schools.

As a complement to their outstanding design attributes, all Text models are GREENGUARD® certified for indoor air quality.

Text tables can be ordered with 20”, 24”, 30” and 36” work surface widths; the product line also offers single-student desks with a space-saving footprint. Options include: a spacious book box; an open-view book basket that’s available with or without a handy paper/pencil tray; a backpack hanger; smartly detailed grommets with a flush-closing cover and wire pass-through openings at each end; and stylish perforated steel modesty panels. In addition, Text models can accommodate many of Virco’s popular wire management and computing accessories.

With Text, colleges, universities, public schools and private schools now have a vastly improved selection of tables and desks for their classrooms and other learning environments. By uniting the elegance of contract furniture with the proven durability and performance of Virco-engineered products, Text affordably embodies a new level of excellence.

DESK AND TABLE ACCESSORIES

Text comes with all the features required for a variety of learning environments. Whether you need single-student desks with book boxes, seminar tables with modesty panels or computer lab tables with grommets and wire management and power/communications capabilities, our selection of optional accessories provides a solution. There is even a caster pack for classrooms on the move. See page 8 for more information on these accessories.
DESK AND TABLE FEATURES

DESK AND TABLE TOP CONSTRUCTION

1 1/8" high-pressure laminate top with particleboard core and T-mold banding:
- All classroom tables
- All seminar tables

7/8" high-pressure laminate top with particleboard core and T-mold banding:
- 20" and 24" deep classroom tables
- All seminar tables
- All student desks

5/8" Fortified Recycled Wood™ hard plastic top:
- All student desks

TABLE CROSSBRACE

“When 48-inch and wider tops carry significant loads, such as computer workstations, extra top support is needed to prevent sagging,” said co-designer Bob Mills. “Many tables use a large ‘keel’ or stiffener, running from left to right, mounted all the way across the underside of the top; unfortunately, keels can ‘get in the way’ and prevent the use of book baskets, book boxes, keyboard trays, and other under-top accessories. Text offers an innovative and versatile solution for supporting these larger tops: a vertical steel column mounted on the heavy-gauge crossbrace which directly supports the center of the top – where reinforcement is needed most – while leaving open space for storage and computer accessories on either side of the column. And, by additionally ‘boxing’ the structure, this ‘beam and column’ design further increases Text’s overall stability.”

ADJUSTABLE HEIGHT LEGS

All Text Series tables and desks have adjustable legs that enable a top height range of 26” to 34”.

ELLIPOTICAL TUBING

“Elliptical tubing gives Text visual distinction,” said Glass, who added that most other classroom tables and desks have round or rectangular frame tubing. “For customers who want furniture with enhanced elegance and finesse, Text is an ideal choice.”

Glass added that Text’s elliptical tubing lets these tables and desks harmonize with Virco’s Zuma®, Sage™, Metaphor™ and Telos™ collections, all of which have seats and backs featuring blended elliptical contours.

“By matching Text products with any of these seating lines, customers will get the benefits of affordable, long-lasting classroom furniture with a higher degree of unified design,” he remarked.

Text models also make a great complement to Virco’s I.Q.® and Virtuoso® seating lines.

In addition to its aesthetic sophistication, Text’s frame configuration also delivers important performance advantages, as Bob Mills explained.

“The gracefulness of the elliptical leg tubes is complemented by the exceptional strength of their robust heavy-gauge steel and 360° welds. And the handsomely detailed elliptical crossbrace helps tie both legs together into a rigid, boxed-frame design.”
